

Transformers, Chokes, Transmitters

Windings on standard bobbins
E, ETD, EFD, P, PQ, RM...

Variants

- SMD, THT
- Varnished, sealed, molded inserts
- Single/multiple windings
- Insulation strength / creepage distances
- Intermediate insulations
- Screening/shielding

Bobbins

- Temperature-resistant, UL
- Single/multiple chamber

Wires

- Varnished copper wires, RF strands
- Insulated wires (PTFE, TEX-E)
- Copper ribbons

Cores

- Ferrites
- Sheet metal, split-tape wound cores

Know-how

- Custom design transformers, chokes and transmitters
- Test facilities

Applications

- Transformers
- Chokes
- Switched power supplies
- Electrical engineering

Packaging

- Trays
- SMD in blister packaging
- Cardboard packages
- ESD conformity

Values specified are typical, but not binding.
